

FOR IMMEDIATE RELEASE

**CONGER AUTO NERO** by CX Swiss Military Watch™

**Liestal, Oct. 17<sup>th</sup> 2014** – The brand CX Swiss Military Watch™ is best known for their flagship model, the ultimate diving watch 20'000 FEET [www.20000feet.com](http://www.20000feet.com). Launched in 2009 the 20'000 FEET won the world record for water resistance for automatic diving watches with a Guinness Book of World Records approved depth rating of 20'000 feet or 6'000 meters (ISO 6425).

Montres Charmex SA is very pleased to announce their new extreme diving watch **CONGER NERO AUTO**:

Named after the fearsome eel-like predator of the sea - up to 10 feet long and with a set of razor-sharp teeth the conger when cornered has been known to attack divers, too. The CONGER NERO AUTO was manufactured in a Limited Edition of 100 pieces only, is water resistant to 2'000 meters and as fearsome in appearance as its namesake. The black DLC (diamond-like coating) is highly scratch resistant and ensures the watch will keep its pristine appearance for many years. The highly accurate mechanical ETA cal. 7750 chronograph movement is chronometer-certified and famous for its unwavering precision

The CONGER NERO AUTO is a Professional Grade diving instrument of formidable dimensions

Technical specifications ref. 2555 et al.:

- . Solid stainless steel case/bracelet
- . Case diameter 48.5mm, thickness 22.5mm, total weight 375gr
